

APTUS AIR AND WATER COOLED CHILLERS WITH SCROLL COMPRESSORS 34-885 kW

ABOUT THE RANGE

This innovative range of air and water sourced chillers are designed and manufactured for a wide range of internal and external processes and applications. Using the latest hermetic rotary scroll compressors dedicated for the use of the ozone friendly refrigerant R410A; these units maximise on energy efficiency. Versatility is guaranteed with this wide range, working at variety of capacities from **34 - 885 kW**, available in six functions and three noise options; catering for every individual application.

All units within the Aptus AT range are manufactured to meet strict EU testing guidelines and are controlled by ISO 14001 and ISO 19001 accreditations.

THE ICS COOL ENERGY PACKAGE

ICS Cool Energy also provide the following services and project management assistance:
