

COM COOL

ABOUT THE RANGE

Installation takes minutes and the unit cools an area up to 100m² and costs on average 20p/hr to run. The unit holds a maximum of 90litres, which requires topping up as and when required. In addition to this, the unit is entirely portable and has castors. This allows for easy movement and help when cleaning around the lightweight unit.

FEATURES

This single fan warehouse evaporative cooler with large volume air movement of 5,165m³/hr is ideally suited to cool office areas and workplaces. The ICS Cool Energy Com Cool unit has been designed for a fast rental installation and start up. The unit operates from a standard 13amp single-phase supply and has no heat rejection hose. In addition to this, the unit is entirely portable and has castors. This allows for easy movement when cleaning around this lightweight unit and also has a robust stand to offer protection.

BEST ENVIRONMENT FOR THIS UNIT

The unit is capable of effectively cooling and heating in large open areas, warehouses, workshops, events, live stock and hangars.

Dimensions (LxWxH)	mm	640 x 500 x 1,660
Weight	Kg	100
Air Connections	-	None
Air Flow	m ³ /hr	5,165
Current Consumption	Amps	2.0
Power Supply	N/A	230/1/50 (1.5mm ²)
Max Power	kW	0.8
Power Connections	-	13 amp standard plug
Power Sound Level	dB(A)	TBA
Water Reservoir	litres	90

BENEFITS

The 28m² evaporative cooler is a freestanding unit and can direct cooler air in localised areas with the assistance of separate fans. The unit operates by a totally natural process of evaporation without the use of refrigerants. The air is cooled by passing over a large wet filter pad with the production of no harmful products – just cool fresh air.
