

EVAP COOL 48

FEATURES

This single fan evaporative cooler with a volume air movement of 1,800 m³/hr is ideally suited in well ventilated warehouse areas and workplaces up to a size of 57m². The Evap Cool 48 unit has been designed for fast rental installation and start up. The unit operates by a totally natural process of evaporation without the use of refrigerants. The air is cooled by passing over a large wet filter pad with the production of no harmful products – just cool fresh air. Additional to that the unit is entirely portable and has castors. This allows for easy movement when cleaning around this lightweight unit and also has a robust stand to offer protection.

TECHNICAL		
Dimensions (LxDxH)	mm	620 x 375 x 868
Suitable Cooling Area	m ²	57
Fan Speed	-	3
Water Tank Capacity	Litres	48
Weight	Kg	13
Power Consumption	W	140
Airflow	m ³ /hr	1,800
