

BOILER 1300

ABOUT THE RANGE

ICS Cool Energy's Boiler 1300 are contained within a steel container enabling external siting and increased protection from environmental elements. The container also aids with portability as the unit can easily be positioned with a fork-lift unit and connected to a customers system, ensuring a fast rental set-up.

The units are designed for reliable and safe operation with flexible hoses resistant up to 7Bar pressure and temperatures up to 100°C. Furthermore the units feature safety devices and system protection.

Other features within the unit include a diaphragm expansion tank and frost protection.
