

COLD STORAGE

TEMPERATURE CONTROLLED STORAGE
AND WAREHOUSING SOLUTIONS

COLD STORAGE

Low to ultra-low temperature solutions

ICS Cool Energy offers cold storage solutions with extensive applications in storage, warehousing and testing. No other product delivers an extreme temperature range between +40°C and -70°C with such accuracy. Our solutions can be adapted to perfectly meet your needs with options including telematics, remote monitoring and Controlled Atmosphere.

Needs

Short term storage

Events, production peaks or fast-tracking a permanent cold store project..

Long-term storage

When a capital investment is not the preferred option, ICS Cool Energy FLEX is the flexible and dynamic solution of choice for cold storage units and chiller / fan coil / AHU combinations.

Applications

Any raw material or finished product requiring temperature controlled storage to preserve or increase shelf life.

R&D applications where a temperature controlled environment is required to enable Accelerated Life Testing (ALT) of critical components.

Food & Beverage

Warehouses

R&D material & High-tech components

Supermarkets

Pharmaceutical, Bio-life & Healthcare

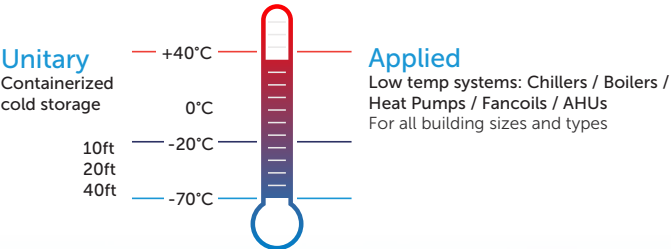

Festivals, Events, Exhibition centers

Low Temperature Fan Coil units for food storage

ICS COOL ENERGY LOW TEMPERATURE TECHNOLOGIES OFFER SOLUTIONS FOR MULTIPLE APPLICATIONS

ICS Cool Energy offer a wide range of cold storage capabilities + ultra-low temperatures and can maintain optimal temperature with minimal fluctuation, extra insulation and off-site preservation ensures protection of product quality.

Key Features

- Low to ultra-low temperature capability
- Precise temperature control
- GDP Pharma certified
- Fully electric operation, with optional diesel generator back-up
- Factory fitted telematics: Real-time remote monitoring, 24/7 (option)
- Available in ISO container sizes 10', 20' and 40'
- Easy to use/easy to service: Simple design and most advanced controller in the industry

PROCESS TEMPERATURE CONTROL SPECIALISTS.

ICS Cool Energy are specialists in temperature control solutions from -40°C to 400°C for critical and manufacturing processes including rental, capital equipment, planned preventative maintenance and emergency breakdown support across all industries Europe wide. For over 30 years, we've been providing technical advice and solutions to leading companies, world-wide – helping them to meet compliance, reduce their energy consumption, maintenance and operative costs.

KEEPING INDUSTRY RUNNING

- Rental, equipment & service
- Consultation & technical expertise approach
- Emergency support 24/7 every day of the year

EMISSION CRITICAL

- Reducing carbon by One Gigaton by 2030
- Free Cooling & Heat Recovery products
- Energy Efficiency enhancements

FLEX

- Zero capital membership solution
- Flex capacity to pay only for what you need
- Built in contingency planning

UK & IRELAND COVERAGE

- 📍 UK Depots
- 📍 Regional Offices
 - 70+ Service Technicians with Van Stock
 - 40+ Sales Engineer Consultants
 - 30+ Depot Repair Engineers
 - Major Account Management Team
 - £50M+ 500MW Fleet
 - 6,000+ Customers
 - 24/7 Emergency Support
