

HEATING RENTAL

0800 840 4210

**COMPLETE HEATING RENTAL SOLUTIONS
FOR FACILITIES AND EVENTS**

HEATING RENTAL SOLUTIONS

Renting can bring the best of all worlds. ICS Cool Energy's 500 MW/£50M+ modern fleet comprises single and dual circuit boilers, indirect gas fired heaters, air handling units and fan coils. This means we can offer compact & energy efficient heating/hot water solutions; expertly maintained with a 60-point check before certified as ready for hire. We have a fully trained and dedicated hire team with over 35 years' experience and more than 30,000 hire projects completed.

It is critical that process, facilities, and event (HVAC) heating runs efficiently and uninterrupted for manufacturers, healthcare providers, construction, and leisure industries. Any changes in operation, namely incumbent boiler failure can mean a complete loss to of heating and hot water, which is catastrophic for businesses and hospitals and can lead to events and leisure activities having to be cancelled.

ICS keep processes running smoothly in the manufacturing sector, so productivity remains optimum and unnecessary costs are avoided with our industry leading heating options. In the healthcare sector, we ensure hospitals avoid any dips or issues in their heating/hot water supply, to limit disruptions for patients, especially when additional, seasonal (winter breakdowns), or emergency boiler plant requirements arise (year-round). In the leisure industry and events sector, where comfort is essential for hotel visitors, gym members or concert guests, our temperature control solutions can be deployed immediately and keep services active.

We work via trade partners, Facilities Management providers, Mechanical and Electrical contractors to ensure clients & patients are supported 24/7/365. We also provide indoor air quality solutions with a range of rental air purifiers to keep spaces fresh and clean as well as at the right temperature

From receipt of your enquiry, we can provide up to same day site survey & delivery of the necessary temperature control equipment, whenever you are in the country and whatever your space or access constraints. This includes complete fuel management. You will also have total visibility of your temperature equipment on you PC, laptop, phone and tablet with ICS Link.

HEATING

- Heating capacities from 3kW to 2MW
- Domestic Hot water (DHW)
- Space & District Heating
- Fuel delivery, management and monitoring
- Single or dual circuit
- Containerised or in bespoke framework
- Can be supplied with AHUs or Fan Coils

Oil, Gas & Steam Boilers up to 2MW
Viessmann boilers & Weishaupt burners
(94% fuel efficiency) up to 2MW

Diesel Heaters
70kW, 100kW & 200kW

Fan Heaters
3kW to 42kW

Electric Boilers
3kW to 40kW

Domestic Hot Water
150kW to 1300kW

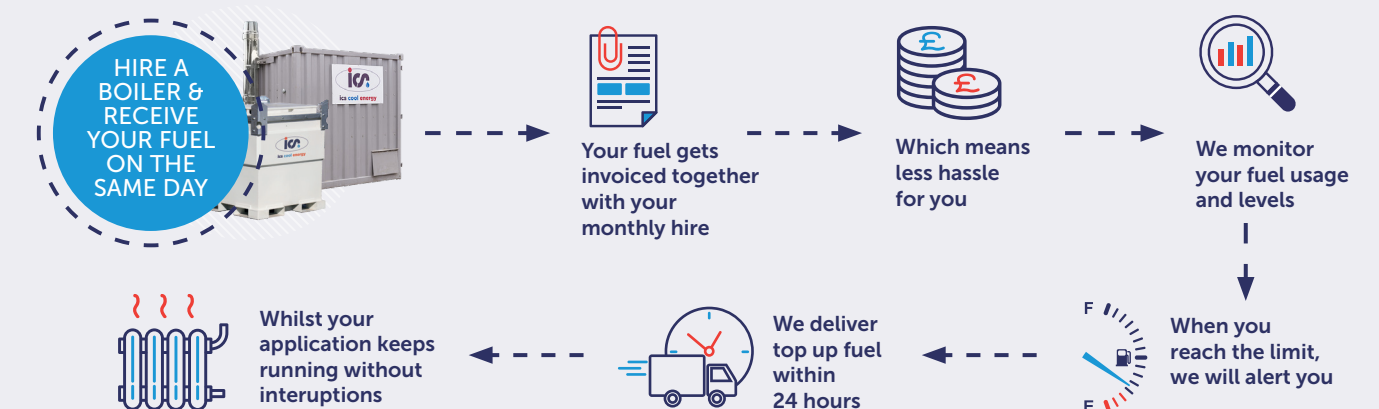

Fuel Tanks 978L, 2900L
& 900L

PORTABLES

- Spot Coolers
- Portable AC
- Air Purifiers
(stand alone & ceiling mounted)
- Fan Coils
- AHUs
- Portable Heaters
- Radiators
- Fan Heaters
- IDFs

FUEL MANAGEMENT SERVICE

PROCESS TEMPERATURE CONTROL SPECIALISTS.

ICS Cool Energy are specialists in temperature control solutions from -40°C to 350°C for critical and manufacturing processes including rental, capital equipment, planned preventative maintenance and emergency breakdown support across all industries Europe wide. For over 30 years, we've been providing technical advice and solutions to leading companies, world-wide – helping them to meet compliance, reduce their energy consumption, maintenance and operative costs.

KEEPING INDUSTRY RUNNING

- Rental, equipment & service
- Consultation & technical expertise approach
- Emergency support 24/7 every day of the year

EMISSION CRITICAL

- Reducing carbon by One Gigaton by 2030
- Free Cooling & Heat Recovery products
- Energy Efficiency enhancements

FLEX

- Zero capital membership solution
- Flex capacity to pay only for what you need
- Built in contingency planning

UK & IRELAND COVERAGE

UK Depots

Regional Offices

- 70+ Service Technicians with Van Stock
- £15K Van Stock Per Van
- Further stock held in our central warehouse
- All engineers have access to a network of suppliers in the field
- 40+ Sales Engineer Consultants
- 30+ Depot Repair Engineers
- Major Account Management Team
- Service Account Management Team
- £50M+ 500MW Fleet
- 6,000+ Customers
- 24/7 Emergency Support
